Some posters can be seen after the event at: aging.wisc.edu

- Advance Care Planning for People with Lifelong Disabilities: A Content Analysis of State-Level Person-Centered Service Plans  
  Presented by: Victoria Knoke

- Beyond the Prime Years: U.S. Immigrants' Earnings Over the Life Course  
  Presented by: Leafia Zi Ye

- Build It and They Will Come, but Will They Stay? Making “Mind Over Matter: Healthy Bowels, Healthy Bladder” More Convenient for Community Agencies  
  Presented by: Katie Brow

- Can I Get Up To Walk? Older Adult Patients' Perceptions of Walking During a Hospital Stay & Their Strategies for Developing Mobility-Friendly Environments  
  Presented by: Jillian M. Bodden

- Can Integrating a Patient Value-Based Dialysis Decision Aid into Nephrology Care, Ease the “Bad News” of the Patient/Nephrologist Dialysis Conversation?  
  Presented by: Meg Wise

- Cellular Acetyl-CoA Balance Regulates Metabolic Processes Implicated In Aging  
  Presented by: Inca A. Dieterich

- Decreased Consumption of Branched-Chain Amino Acids Promotes Healthspan in Wild-Type and Progeroid Mice  
  Presented by: Nicole E. Cummings

- Dual-Energy X-ray Absorptiometry Corrected for Muscle Quality—Improving the Diagnosis of Sarcopenia  
  Presented by: Jevin Lortie

- Effects of an Online Continuation Program for a Community-based Fall Prevention Program  
  Presented by: Jane Mahoney

- Environmental Enrichment’s Effect on Phosphorylated P70s6 Kinase Levels & Learning & Memory in a Rodent Model of Tauopathy Overexpressing Human Tau in the Hippocampus  
  Presented by: Ryan Gorzek

- Epigenetic Reprogramming Rejuvenates Synovial Fluid Derived Mesenchymal Stem Cells Obtained from Joints with Osteoarthritis  
  Presented by: Brian Walczak

- The ER-Resident Acetyltransferases: Novel Targets for Alzheimer’s Disease  
  Presented by: Mark A. Farrugia

- Examining Potential Disparities in Access to Long-Term Care Options for Economically Vulnerable Older Adults  
  Presented by: Meghan Jenkins Morales

- The Great Recession, Health, and Well-being in MIDUS (Midlife in the US Study): Longitudinal Data from Main and Milwaukee Samples  
  Presented by: Julie A. Kirsch

- GSK3β Regulates Brain Energy Metabolism  
  Presented by: Dylan C. Souder

- How Do Soft Tissue Releases During Total Knee Arthroplasty Change Knee Biomechanics?  
  Presented by: Joshua D. Roth

- “Mind Over Matter: Healthy Bowels, Healthy Bladder:” A Low-Risk Solution for Women With Incontinence  
  Presented by: Heidi Brown

- The Role of Aging-Dependent Metabolic Dysfunction in Traumatic Brain Injury Outcomes  
  Presented by: Laura Swanson

- Short-Term Methionine Deprivation Improves Metabolic Health and Induces Persistent Epigenetic Changes in Both Young and Aged Mice  
  Presented by: Shany E. Yang

- Trouble Walking?: What Tapping on the Achilles Tendon Can Tell Us  
  Presented by: Anahid Ebrahimi

- What Do Women Want and Why? Values Driving Format Preferences for Bowel and Bladder Incontinence Education  
  Presented by: Meg Wise

New Investigator Award Winner
For Excellence in Aging Research: Hannah J. Schiffman
Presenting a Poster entitled: Anesthetics Modulate Mortality in a Drosophila Blunt Trauma Model
